   b. Question Review
      i. The committee reviewed each question to understand the purpose of the question and to see if the question should be revised.
      ii. Question 15: Question will need to be clarified and wording changed to make sure the question is answered correctly. Specify whether funds were permanent or temporary and restate that SFAC has $250K in SSF allocations each year in which to make funding recommendations to the Provost-EVC. Units will need to limit requests to their highest priorities.
      iii. When units request funding for staff FTE, it should be clarified that they only need to ask for the salary portion of the cost; benefits will be funded centrally. This will be included in the guidelines rather than in the question itself.
      iv. Question 2: In regards to demographics, the questionnaire should ask units how their demographic numbers have changed from year to year, and ask them to list any significant changes to any particular student population and which student population gets the most funding.
      v. Table 1b of the budget/financial financial information should include a line for new permanent funds and eliminate the information for centrally benefits (benefits funding was decentralized in 2012-13) and only include EPL funds.
   c. The email call for budget survey and funding request should include a chart showing what units were have been funded in the last few years and information on what the SFAC/student priorities were; this information should also be included in guidelines.
   d. Note in the guidelines that SSF funds cannot be used for academic/instruction, and attach UC guidelines for the use of SSF funds.
   e. The guidelines document should be included in the email.
f. Sonali will make modifications to the templates and send out revisions to the committee for comment; any additional questions/changes should be sent back to Sonali before next Friday’s meeting.
g. The final modifications should be ready by next Friday, and the committee will discuss when to send out the questionnaire and budget survey.
